

A therapy designed to treat  
the source, rather than just  
the symptoms.

Presenting Kevin T. Murphy, MD

 **Thursday, January 30**

 **6:00 - 8:30pm**

 **Fleming's Steakhouse**  
8970 University Center Lane  
San Diego, CA 92122

 **RSVP by calling (858)248-2520 or  
by emailing [beth@prtms.com](mailto:beth@prtms.com)**

You are invited! Please join Kevin Murphy, MD from MindSet Treatment Center for a scientific presentation on Personalized repetitive Transcranial Magnetic Stimulation (PrTMS). PrTMS uses technology cleared by the FDA for use in treating Major Depressive Disorder. PrTMS is an approach to treatment that is designed to be personalized, gentle, and sophisticated.

PrTMS therapy may improve quality of life for patients with a variety of brain and mental health conditions—including those that have not responded to medication in the past.

---

Dr. Murphy's presentation is open to Physicians.

The presentation will be approximately 45 minutes in length, followed by Q and A.

You are invited to tour our office anytime!

---
