Fully Armored is hosting Dr. Kevin Murphy for a scientific presentation on Personalized repetitive Transcranial Magnetic Stimulation (PrTMS). PrTMS uses technology cleared by the FDA for use in treating Major Depressive Disorder. PrTMS is an approach to treatment that is designed to be personalized, gentle, and sophisticated. Please pass invite along to friends/family who could benefit.

PrTMS therapy may improve quality of life for patients with a variety of brain and mental health conditions may include depression, anxiety, PTSD, ADHD, Post – Concussion Syndrome, Autism & many more.

---

Dr. Murphy's presentation will be given to a group of current and prospective patients, families, local health providers, and various other specialty providers. It is expected to be approximately 1 hour in length, with Q&A following.

This event is free.
